

Google Checkout Instructions.

Please Follow Steps 1 through 6.

The screenshot shows the Google Checkout 'Settings' page. At the top, a yellow banner reads 'Your settings have been saved.' Below this is a navigation bar with tabs for 'Orders', 'Payouts', 'Tools', and 'Settings'. A callout box labeled '1) Click Settings' points to the 'Settings' tab. On the left sidebar, there are links for 'Profile', 'Financials', 'AdWords', 'Preferences', 'Tax setup', 'Integration', and 'Users'. A callout box labeled '2) Click Integration' points to the 'Integration' link. The main content area is titled 'Integration settings' and contains several sections: 'Bank account information required' (with a callout box '3) Enter API callback URL supplied by Auction Source' pointing to the 'API callback URL' field), 'Shopping cart post security' (with a checked checkbox 'My company will only post digitally signed carts'), 'API callback URL (Level 2 integrations only)', 'API callback URL', 'API callback method' (with radio buttons for 'XML' and 'HTML (name/value pairs)'), and 'Advanced settings' (with a callout box '4) Expand Advanced Settings and Check "Require Notification ..." checkbox' pointing to the 'Require notification acknowledgments' checkbox). On the right side, there are links for 'Integration documentation', 'Integration developer's guide', and 'Google Checkout discussion group'. Below these are 'Account information' fields for 'Google merchant ID' and 'Google merchant key', with a callout box '5) Send Auction Source your Google Merchant Id and Google Merchant Key' pointing to these fields. At the bottom of the settings area is a 'Save' button, with a callout box '6) Click Save' pointing to it.

2) Click Integration

3) Enter API callback URL supplied by Auction Source

4) Expand Advanced Settings and Check "Require Notification ..." checkbox.

5) Send Auction Source your Google Merchant Id and Google Merchant Key

6) Click Save
